- **Technologist degree:** Digital Games Technologies
- **English level:** Nearly fluent
- **Languages:** HTML, CSS, Javascript, Typescript, Python, PHP, C#, SQL
- **Platforms, technologies and frameworks:** Angular, AngularJS, JQuery, Unity Engine, Godot, React, NPM, Yarn
- **Version Control:** GitHub, SVN, Bitbucket, GitLab, Unity Collab
- **Methodologies:** Kanban, Scrum

PROFESSIONAL EXPERIENCE

Qualidata — *Full Stack developer*

MAY 2022 – PRESENT

As an intermediate Full Stack developer and UX Designer I was nominated leader of the Frontend development of a new system. Some of my tasks: defining technologies and checking their compatibility, defining the project structure, helping on the design of the system, developing responsive pages, etc…

Technologies used: Figma, ReactJS, Styled Components, Javascript, HTML, CSS.

Autoglass — *Full Stack Developer*

OCTOBER 2020 – APRIL DE 2022

As an intermediate Full Stack developer (with frontend focus) I was nominated UX Designer. Some of my tasks: develop and maintain an auto insurance system, idealizing a new system, building prototypes, validating prototypes with the final user, developing pages, etc…

Technologies used: Adobe XD, Photoshop, Angular, Javascript, HTML CSS, .NET.

Mito Games Ltda. — *Full Stack Developer*

SEPTEMBER 2019 – JULY DE 2020

Assumed two different roles: web developer and game developer. Worked on: VR/AR, websites for advergames, gamification of educational content and a puzzle game.

Technologies: AngularJS, Ionic, AFrame, Typescript, Unity, C#, HTML, CSS, SQL, MongoDB.

Qualidata — *Trainee*

NOVEMBER 2018 – SEPTEMBER 2019

As a trainee I had my first contact with backend programming and Angular (more specifically AngularJS). My tasks were to maintain and develop a Web version of an educational system.

Technologies: AngularJS, HTML, CSS, .NET.

Backstage — *Trainee*

FEBRUARY 2017 – OCTOBER 2018

As a trainee I had my first contact with Web Development. My tasks were: developing responsive pages, marketing emails, designing simple databases, etc…

Technologies: HTML, CSS, Javascript, JQuery, PHP, MySql.
